PRICE, 5 CENTS

OVERSHADOWS THE FEVER SITUATION

New Orleans More Interested In Run on Bank Than Dread Yellow Fever.

NINETEEN CASES

And Five Deaths Reported in Crescent City Saturday

WEEK ENDING YESTERDAY SHOWED MARKED IMPROVEMENT INDICATING THAT CERTAIN PROGRESS WAS BEING MADE TOWARD COMPLETE ERADICATION OF THE DISEASE.

By Associated Press.
New Orleans, Oct. 14.—Following is the official fever report to 6 p. m.:
New cases 19; total to date 3,305.
Deaths 5; total to date 428.
New foci 7.
Cases under treatment 156.

New Orleans, Oct. 14.—The fever situation again showed improvement today notwithstanding that the new cases increased from the daily totals of a week ago.

The week ending today showed a large diminution in the number of deaths, showing, federal authorities insist the certain progress that is being made towards the complete eradication of the disease.

This marked the end of the thirteenth week of the fight against the fever and it is not believed the authorities will be actively engaged for more than two weeks longer.

Interest in the yellow fever situation was overshadowed today by the situation given to what is regarded through the business community as an utterly unwarranted run on the Germania Savings Bank. With over seven million dollars deposits and with investment in gilt edged securities the Germania has been regarded as one of the "strongest" banking institutions in the south.

An investigation by the clearing house committee showed that the bank was able to pay all depositors in full and to divide more than eight hundred thousand dollars among the stockholders.

ITALIAN VICE COUNCIL IS HONORED

Appointed by the King to the Rank of Cavaliere--Decree Received Yesterday.

Italian Vice-Consul G. E. Caffero, who has served in that position in Pensacola for the past nineteen years, has been highly honored by his government.

Yesterday he received through the mails the decree of the King of Italy, in which he is appointed to the rank of Cavaliere of the Order of the Crown of Italy. This rank is bestowed upon only vice-consuls who have been in the service for eighteen years and who rendered satisfactory service. To be so honored by the king is a distinction which but few receive and Mr. Caffero is therefore justly proud of having received the decoration.

The diploma, setting forth the decree, also, gives the vice-consul the privilege of decorating himself with the cross of the Cavaliere.

EMPERORS SIGN PEACE TREATY

By Associated Press.
Washington, Oct. 14.—The Emperor of Russia and the Emperor of Japan, this morning signed their respective copies of the peace treaty, thus officially ending the war.

FRENCH NAVY IS READY TO STRIKE

Patience Strained But Not Yet Exhausted by Controversy With Venezuela.

By Associated Press.
Washington, Oct. 14.—Another conference was held to-day between Secretary Root and French Ambassador Jusserand, regarding the Venezuelan situation. Afterwards the statement was made that French patience while strained, was not yet exhausted.

Another effort will be made to settle the dispute diplomatically before resorting to force. In the meantime a French warship is hovering within striking distance of the Venezuela coast and others are ready to join it on short notice.

VIOLATED THE "JIM CROW" LAW

L. B. Croom a Colored Preacher Arrested by the Police For Violating Same.

The first violation of the new "Jim Crow" street car law, which became effective Friday, having been passed by the city council fifteen days previous, occurred yesterday morning, when L. B. Croom, a colored preacher, was arrested upon complaint.

The arrest was made by Captain Pondebilla. Croom took a front seat on one of the depot cars, and refused to move when the conductor notified him to get into the colored compartment. Croom claimed that he had a right to a seat in any portion of the car after he had paid his fare.

The police were called for and Croom was placed under arrest. At the police station his bond was fixed at \$100.00, which was furnished. The case will be heard Monday morning in the recorder's court.

It is understood that the move yesterday was the first one looking towards a test of the new law, and that the case will be appealed to the state supreme court should other courts uphold the new law.

COLORED BOY IS HELD FOR MURDER

Alleged that Tom Grice Pushed Another Colored Boy Into Escambia River.

Tom Grice, a colored boy about nineteen years of age, is an occupant of the county jail, having been placed there and held upon the charge of murder. Grice resides in the neighborhood of McDavid.

It is alleged that Grice and another colored boy whose name could not be learned, were seen to go out into Escambia river in a small row boat, and later Grice returned by himself claiming that the other boy had fallen overboard and drowned.

This occurred near McDavid, and statements made make it appear that Grice took a dollar from the boy and then pushed him from the boat into the river.

The body has not yet been recovered, although a search is being made for it. Grice was arrested and brought to this city by Deputy Sheriff Smith.

INTERNATIONAL AUTOMOBILE CONTEST

For Vanderbilt Cup Won by Hemery In a French Machine.

DISTANCE OF 233 MILES COVERED IN BETTER THAN A MILE A MINUTE--SENSATIONAL TIME MADE BY LANCIA IN ITALIAN CAR.

By Associated Press.
New York, Oct. 14.—A French machine driven by Hemery won the International auto race for the Vanderbilt cup on the Mineola L. I. course today. Hemery covered the distance of 233 miles in four hours, thirty-six minutes and eight seconds, seven minutes better than a mile a minute.

Heath, who won last year's race in an American car and drove a French car this year, came in second, Tracy in an American machine third and Lancia in an Italian car, fourth. Lancia's time for the seven rounds was sensational, the time being far inside the mile a minute mark.

There were several accidents during the race, but no one was killed. The elapsed time at the close was as follows: Hemery, 4:36:8; Heath, 4:39:40; Tracy, 4:58:26; Lancia five hours thirty one seconds.

CAPTAIN FLINN IS APPOINTED

BY HARBOR MASTER ABERCROMBIE, SUCCEEDING WILLIAM OLSEN DECEASED.

Harbor Master J. E. Abercrombie has appointed Capt. J. M. Flinn, as deputy harbor master to succeed William Olsen, who expired during the first portion of the week of yellow fever.

Captain Flinn is one of the oldest harbor pilots of the port, and will no doubt render satisfactory service in his new position.

He has served as master of a number of the harbor tugs, and is thoroughly familiar with the harbor.

NEW YORK TEAM WINS WORLD'S CHAMPIONSHIP

Takes Winning Game of Series From Philadelphia Americans by Score of 2 to 0--Fans Enthusiastic.

By Associated Press.
New York, Oct. 14.—Manager McGraw and his New York National League champions were almost mobbed by frenzied baseball enthusiasts on the Polo Grounds this afternoon, the latter wild with delight when, by a score of 2 to 0 the Philadelphia American League team was defeated and the championship of the world won by New York.
Five games were played in the post season series between the two teams and in each contest the defeated side was shut out. The first game was won by New York in Philadelphia by the score of 3 to 0. The second, which was played here, went to Philadelphia by the same score, and the other three were won by the New Yorkers, Matthews having the credit of winning three games and McGraw winning one and losing the only one which the American League champions won.
Bender for the Americans opposed Matthews to-day and pitched gilt edge ball, but New York was swift on the bases. New York scored in the fifth and eighth innings.
A summary of the score is as follows:
R B H E
New York 2 5 2
Philadelphia 0 5 0
The attendance was twenty-four thousand and the division of receipts will net each player of the Nationals \$1,142 and the Americans \$420.

FIVE LIVES LOST DURING TERRIFIC STORM AT SEA

By Associated Press.
New York, Oct. 14.—Five lives are known to have been lost and more than thirty persons injured, some seriously, on the Cunard line steamship Campania last Wednesday when a gigantic wave rolled over the steamer and swept across the deck thick with steerage passengers. The steamer was buried so deep that passengers were submerged to their waists as the immense volume of water rolled aft and then surged forward. Although some of the passengers thought the Campania should have stopped in the attempt to save those washed overboard, the officers say that this was practically an impossibility.
Both passengers and officers say the waves in the Wednesday's gale were the highest ever seen. At times they broke as high as the smokestacks.
An hour before the accident the second officer, on the bridge, was struck by the descending crest of a wave, knocked down and rendered unconscious.

WILLIAMSON SENTENCED

By Associated Press.
Portland, Ore., Oct. 14.—Congressman John N. Williamson, convicted of conspiracy to defraud the Federal government of public lands, was sentenced to ten months imprisonment.

MISS MACKAY IS NOW WOMAN GOLF CHAMPION.

By Associated Press.
New York, Oct. 14.—Miss Pauline Mackay, of the Oakley Country Club, of Watertown, Mass., won the woman's National Golf championship to-day, defeating Miss Margaret Curtis, of the Essex Country Club, of Manchester, Mass., by one up in eighteen holes.

FOOT BALL

By Associated Press.
New York, Oct. 14.—Following is a list of the principal football games played to-day:
University of Michigan 18, Vanderbilt 0.
University of Pennsylvania 17, North Carolina 0.
West Point 6, Virginia Polytechnic 16.
Princeton 48, Bucknell 0.
Yale 30, Holy Cross 0.
Amherst 23, Bowdoin 0.
Syracuse 27, Hamilton 0.
University of Chicago 17, University of Indiana 5.
Clemson 5, University of Tennessee 5.
Harvard 12, Springfield Training School 0.

BIG IMPROVEMENT IN PENSACOLA

DOCTORS MUST REPORT AT ONCE

To the State Board All Cases Of Yellow Fever Which They Discover.

Physicians of the city must hereafter report all cases of yellow fever as soon as they are discovered. This must be done to the State Health Officer, the object being to have the fumigating corps proceed at once to the residence and begin the work of fumigation before the patient becomes too ill to be moved. The following letter was yesterday sent to City Health Officer Pierpont in regard to this matter:

Pensacola, Fla., Oct. 14, 1905.
Dr. J. Harris Pierpont, City Health Officer of Pensacola.
Dear Doctor:—In compliance with a Resolution adopted by the City Board of Health of Pensacola, yesterday the thirteenth instant, I have to request that you will issue instructions in most positive and emphatic manner, to all Practitioners of Medicine in Pensacola to at once report by telephone to the office of the State Health Officer in this City, all cases of "fever" which cannot be absolutely and positively excluded from a diagnosis of Yellow Fever, as well as all cases of Yellow Fever.

My object in making this request is to be able to fumigate any house which I may deem needful to be fumigated for the purpose of destroying possible yellow fever infected mosquitoes, without waiting several days and perhaps not at all, for a report of cases to be made to you of yellow fever. If there is not an Ordinance of the City of Pensacola which will enforce this requirement, you are asked to bring the matter to the attention of the Mayor, that the necessary authority by law may be secured to the State Health Officer for this purpose.

Yours very truly,
JOS. Y. PORTER,
State Health Officer.

DR. PORTER GIVES NOTICE TO MAYOR

That Money is Available But Wants Support of Officials And Citizens.

Mayor Bliss yesterday received from State Health Officer Porter a letter informing him of the action of the President of the State Board of Health and asking the mayor for the enthusiastic support of the city officials, as well as the citizens. The letter is as follows:

Pensacola, Fla., Oct. 13, 1905.
Hon. Chas. H. Bliss,

Mayor City of Pensacola, Fla.
Dear Sir:—The President of the State Board of Health, under the authority of the Governor and Comptroller of the state, has empowered me as State Health Officer to strenuously prosecute the work of yellow fever eradication from Pensacola, and to redouble energetic action in this direction. To accomplish this purpose, permission has been granted to the State Health Officer to use such an amount of the State Board of Health's funds to "prosecute an energetic fight against yellow fever along such scientific lines as in his judgment will meet the situation," but I am instructed by the President of the Board in a telegram from him late last evening that the conditions of this tender of state assistance are "so long as the State Health Officer shall receive enthusiastic support and hearty co-operation of the Pensacola public at large." I shall be glad to confer with you and Dr. Horace L. Simpson, the resident member of the State Board of Health on this subject, as the President requests that whatever action is taken and undertaken that the State Health Authorities must have a clear understanding of the extent of authority to be granted by the city to do the work, as well as the extent and proportion of the service and expense which will be expected to be borne by the city government.

Very truly,
JOS. Y. PORTER,
State Health Officer.

Only Eleven Cases and One Death Reported to Health Authorities.

MUCH ENCOURAGED

Dr. Porter Attributes Decrease To Persistent Fumigation.

VICTIM REPORTED WAS W. M. CROSS, WHO HAD BEEN ILL FOR SEVERAL DAYS--STATE HEALTH OFFICER WILL CARRY ON FIGHT WITH RENEWED VIGOR.

Following is the official summary of the yellow fever situation up to last night:
New cases 11
Total cases to date 334
Deaths yesterday 1
Total deaths to date 53
Cases Discharged 161
Cases under treatment 176

Last night's yellow fever report showed a great improvement in the situation in Pensacola. The official report was eleven new cases and one death, a decrease of eighteen cases over the day previous, and also a decrease in the death rate.

The report caused Dr. Porter and all of the health officials to become more cheerful, and it will no doubt have a similar effect upon the residents of the city, especially those who had become worried owing to the previous day's report.

The new cases reported by the physicians last night are as follows:
Mrs. F. Geri, East Church street.
Mrs. Liger, No. 7 East DeSoto street.
Arthur Reed, 512 West Wright street.

Miss Alice McLellan, 506 North Ninth avenue.

Alberto Vermillion, 625 Heinburg street.

John Williams, 814 East DeLeon street.

Henry Rogers, East Gregory street.

Joe Brock, Twelfth avenue and Salamanca street.

Bill Daniels, 611 East Belmont street.

Mrs. W. J. Ham, 411 East Cervantes street.

W. B. Smith, (colored), 215 North Reus street.

The One Death.
The one death occurring was that of W. M. Cross, of Gregory and Coyle streets. He had been ill for several days, having been reported as a yellow fever patient in Thursday's report. His wife is also ill with the fever.

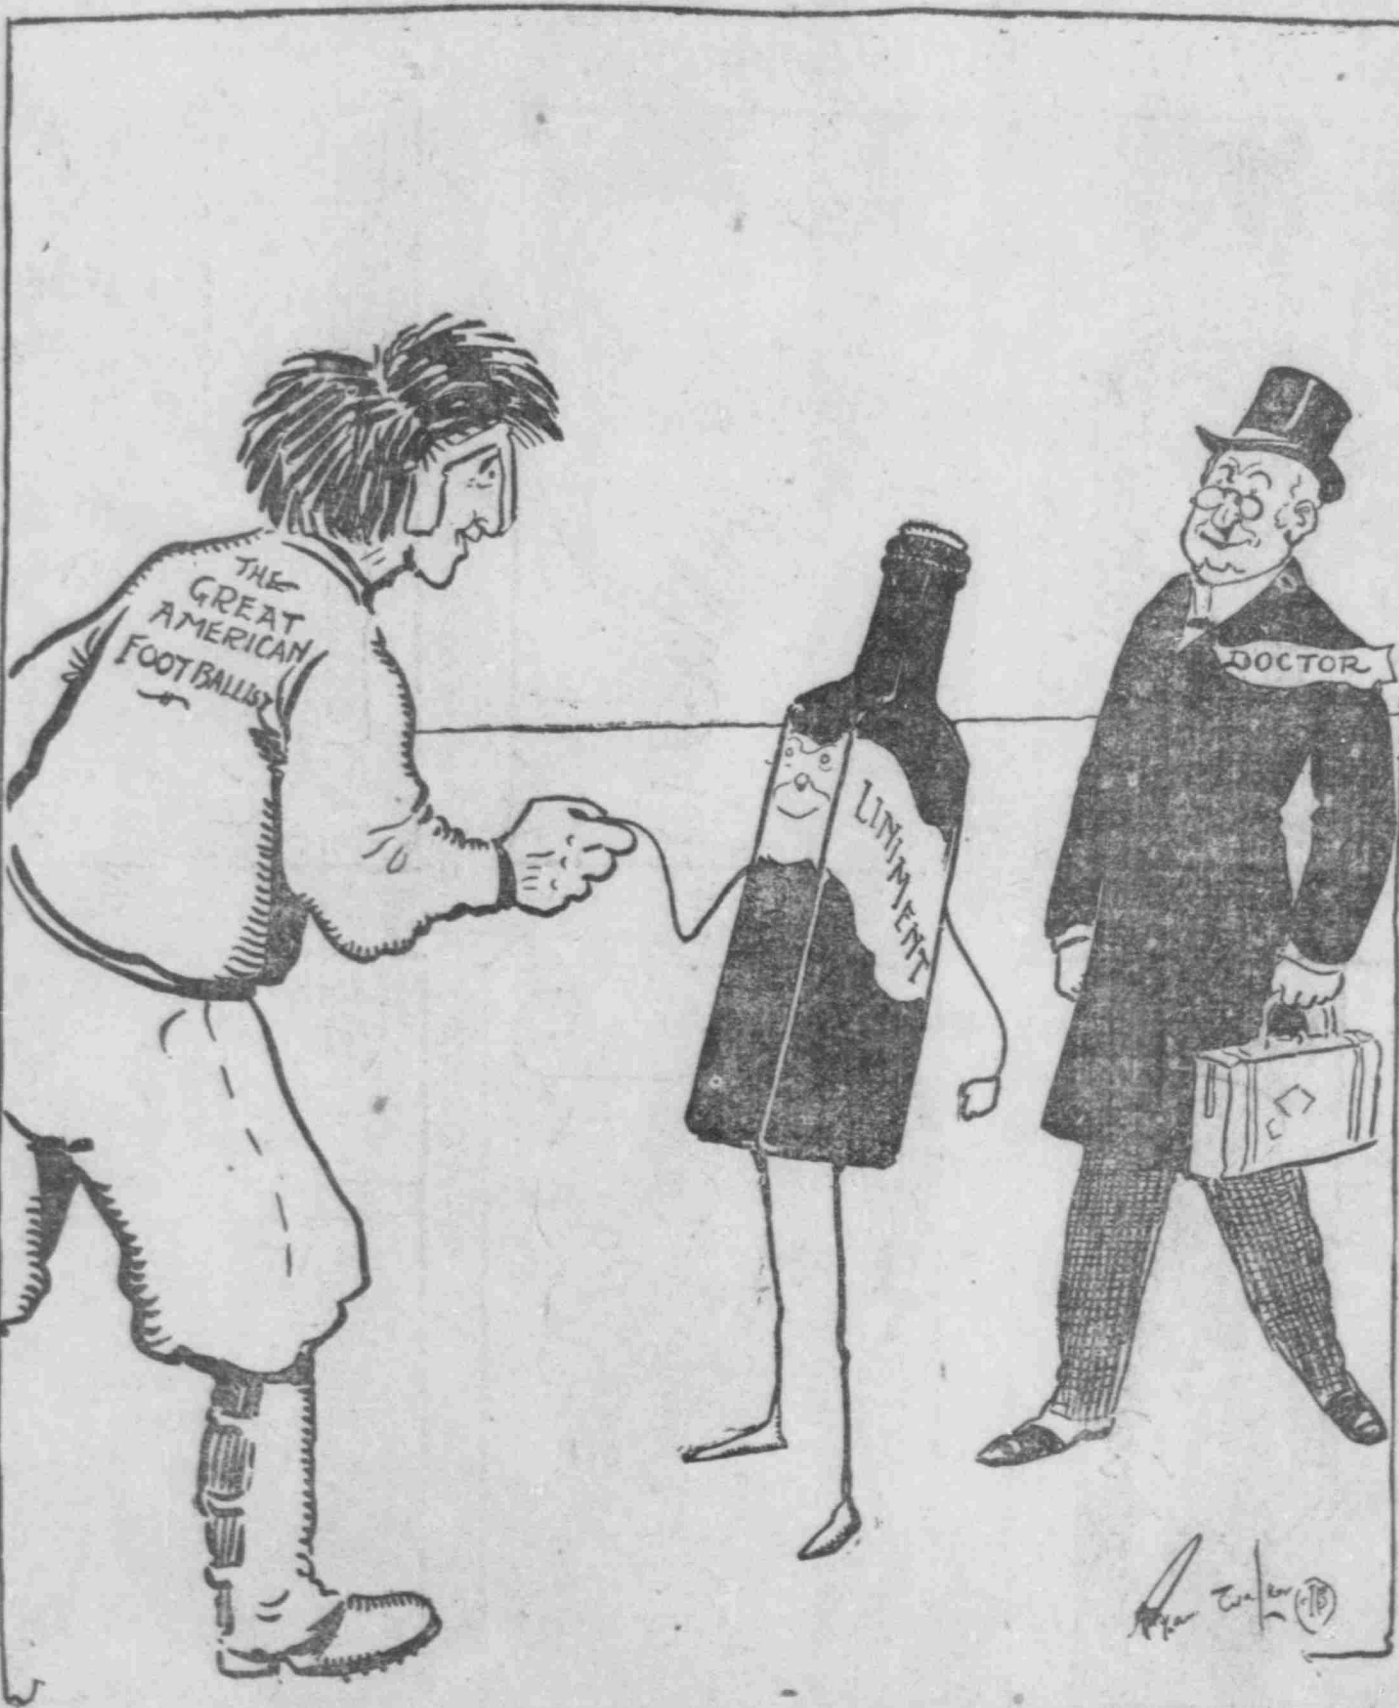

The deceased conducted a small store at the corner of Gregory and Coyle streets, but some weeks ago secured employment as one of the fumigating force, where it is supposed he contracted the disease.
He was a member of Van Buren lodge No. 875, I. O. O. F., of Chicago, Ill., and the funeral will be under the auspices of the local Odd Fellows. The services will be conducted at 10 o'clock at the undertaking parlors of Northrup & Wood, and the interment will be in St. John's cemetery.

Dr. Porter Encouraged.
State Health Officer Porter was much encouraged last night when the physicians submitted their reports, showing only eleven new cases. When asked about the situation he stated that he attributed the decrease in cases to the persistent and vigorous manner in which he fumigating had been conducted, and now that the cases had commenced to decrease the fight will be continued with renewed vigor, in the hope of stamping out the disease at as early a date as possible. "I am very greatly encouraged," said the state health officer. "It shows the result of thorough fumigation, which is now being done to a larger extent than heretofore."

Fumigating Houses.
The fumigating force, which has been increased by the addition of one hundred men, did some excellent work yesterday. The report of Drs. Kennedy and D'Alemberte last night showed that during yesterday ninety-two houses had been fumigated by the force. This work will continue through Sunday, as it is the desire to cover the city as quickly as possible.

STRIKE OF ELECTRICAL WORKERS IS ENDED

By Associated Press.
Berlin, Oct. 14.—The strike of electrical workers has ended, the companies agreeing to a five per cent increase in wages. The result is a victory for the employees.

OLD FOLK ENDS MEET ON THE BATTLE GROUND.
